MAKING GLOBAL CONNECTIONS

## UNDER BODY AND TUB ILLUMINATION

Forget about fumbling with flashlights or using your mobile phone, the powerful Tonneau Lighting System from Lumen will flood your ute's rear with the sharp glow of high-intensity LED bulbs. Just open the tailgate or press the key remote and the lights will automatically turn on so you can find exactly what you are looking for. This system is compatible with Tonneau covers, canopies and bedliners.

# UNDER BODY AND TUB ILLUMINATION

Lumen also offer under-body illumination where super-bright LED's are strategically placed under the car body. These LED's not only look great but serve an important function and provide fantastic puddle lighting. Both of these systems are plug and play and seamlessly integrated into the vehicles existing wiring harness. The system is activated by the opening of the car door.

## Fitment Time:

45 minutes

## Specifications:

Rated Voltage:	12v
Operating Voltage Range:	9 – 16v
Power Consumption:	~40mA (max)
Mass:	~80g
Operating Temperature:	-20°C - +70°C
Storage Temperature:	-40°C - +85°C
Dimension:	Ø16mm x 15mm (Diameter x Length)

## Kit Contents:

Fitting Instructions x1

Lamp x4

Pin Switch

Illumination Harness x1
